14th CRESSE Summer School on Competition Policy and Regulation & 2nd Advanced Short Courses

Saturday 29th June - Thursday 11th July, 2019

The [Summer School](#) is organized for 14th consecutive year and is designed for professionals working in the wider areas of **Competition Policy and Network Industry Regulation**. The School provides a comprehensive account of the most up to date developments in economic theory, empirical analysis, legislation and policy in the areas of Competition and Regulation. Participants of the Summer School join a vibrant community of motivated students from all over the world and a [distinguished international faculty](#). The Contents are organised in 8 self-contained [Modules](#) of up to 16 hours duration each. Particular emphasis is placed on the presentation and discussion of Case Studies.

Since 2018, CRESSE also offers a number of [Advanced Short Courses](#) in specific topics of Competition Policy (the topics may change from year to year). These are targeted to the more experienced professionals working in competition authorities or regulatory bodies or in consultancy companies who are trained in economics at undergraduate and postgraduate level (including chief economists, directors of economics, senior case handlers and senior analysts). They are also directed to those interested in competition economics who, while already trained at postgraduate level in microeconomic theory and industrial organization, may have had limited opportunity for focused study in the field. Advanced Short Courses can be taken on a stand alone basis or by Summer School participants substituting these courses for part or all of [Module 6](#) of the regular Summer School program.
